SCHOOL CHILDREN ARE ON STRIKE

Compulsory Law Will Be Enforced at Calumet—Special Meeting Called.

FIVE HUNDRED OUT
Wholesale Prosecution of Parents to Follow If Pupils Do Not Return.

Calumet, Mich., Oct. 7.—The sympathetic strike of school children in the Keweenaw county copper strike district spread today and five hundred are now out. The Ahmeek, New Algonquian and Mohawk schools are affected. A special meeting of the school board was called to deal with the situation. It is said the compulsory school attendance law will be upheld and that wholesale prosecutions of parents will follow if the children don't return to school at once. This morning a parade of 400 of the striking pupils was held at Ahmeek. Parades featured the morning activities of the strikers. A woman was arrested by the military authorities at Quincy for disorderly conduct. Seventy-five strike breakers arrived last night for the Quincy and twenty arrived today for the Calumet and Hecia.

Automobiles are still being fired on in the Keweenaw district. The machine of a Calumet man was struck last night, the bullet shattering the windshield.

MRS. FISK COMING TO OGDEN

"Tess of the D'Urbervilles" will be shown at the Globe theatre next Monday, Tuesday and Wednesday. Following is a clipping from the Dramatic Mirror:
Managerial misgivings lest moving pictures replace the drama seem to be well founded as I watched the superb pictures of Mrs. Fiske in "Tess of the D'Urbervilles." The needlessness of words when great acting is being done was demonstrated in the pictures, and it was like a city-worn pilgrim's annual outing to see the hills so green, and the streams so cool that a breeze from them seemed to sweep the auditorium. Even the satin sides and the countable ribs of the cattle seemed to be within arm's reach of us. The "Tess" pictures are the supreme triumph of the moving picture art.
No extra charge for admission—5 and 10c.—Advertisement.

Deaths and Funerals

ALLEN.—Funeral services for Mrs. Louise Catherine Allen were held yesterday at 1 p. m. from the Huntsville meeting house. Bishop John Hall officiating. Musical numbers were rendered by the ward choir. Mrs. Elizabeth Schade and Miss Mabelle Renstrom, words of consolation were spoken by Mrs. Aldous, Mrs. Sarah Orth, Charles Cramer, Nephthi Neilson and John McKay. A large attendance followed to the grave in the Huntsville cemetery, where interment was made.

FORESTER GRAVES IS BACK FROM NEVADA

SYMPHERS.—Funeral services for Mrs. Sarah Elizabeth Sympers were held yesterday at 2 p. m. from the Lindquist chapel. Reverend H. D. Zimmerman officiating. Musical numbers were rendered by Miss Bessie Blair and Charles Blair. Interment in Mountain View cemetery.

ROBERTSON.—Mrs. Martha Maud Robertson died at 5 a. m. today at the Dee hospital after three years' suffering of heart disease. Deceased was born October 29, 1884, in Salt Lake City and has resided in Ogden a number of years. She was the daughter of George and Elizabeth Cheshire and the former wife of W. A. Robertson.

Left to mourn her loss are four brothers, Charles Cheshire of Eldwood, Box Elder county, Utah; Reuben Cheshire and William Cheshire of Salt Lake; Thomas Cheshire of Ferris, Emery county, Utah; three sisters, Mrs. Mary A. Ramsey of St. George, Utah; Mrs. Susan Goldson, Salt Lake City; and Mrs. Elizabeth Brasin of Huntington, Utah.

Funeral services will be held Thursday at 2:30 p. m. from the Lindquist chapel. Bishop N. A. Tanner officiating. Remains may be viewed tomorrow from 4 p. m. to 7 p. m., and Thursday until funeral at the funeral chapel.

SAYS BROTHER IS HELD AS HOSTAGE

Trinidad, Colo., Oct. 7.—Officers are investigating the story of Eris Karas, a Greek fireman at the Tabasco mine, who reported today that a band of coal mine strikers are holding his brother as a hostage under threat of death to insure his own return to captivity. Karas returned to Tabasco this afternoon and told Mine Superintendent Charles O'Neil that he and his brother had been held up by armed strikers Sunday night, dragged from the buggy in which they were driving to Ludlow, beaten and threatened with death if they did not join the strikers. Then, according to the Greek's story, they were taken to the camp of the strikers at Ludlow and held prisoners over night.

Karas said he had been allowed to return to Tabasco for his trunk, on promise that he would return to the strikers' camp. His brother was held as a hostage, he declared, and his captors told him his brother would be severely dealt with if he, Eris, did not return.

HATCH-HATCHY BILL POSTPONED.—Washington, Oct. 7.—Action by the senate on the bill to permit San Francisco to draw a water supply from the Hetch Hetchy Valley was postponed today until December 1 with an agreement to dispose of the measure by December 6. Some senators objected to consideration during the absence of Senator Works. The bill has passed the house.

CHINESE ELECT VICE PRESIDENT.—Paris, Oct. 7.—General Li Yuan Heng, provisional vice president of the Chinese republic, was elected vice president today for a term of five years by the United Houses of the Chinese parliament. He received 506 votes out of the 857 cast.

FORESTER GRAVES IS BACK FROM NEVADA

Last evening Forester Henry S. Graves and District Forester E. A. Sherman returned from Ely, Nev., where they spent a couple of days inspecting forest headquarters.

The foresters state that they found conditions favorable and that the work of supervisors and rangers is satisfactory. Range conditions are good and in the farm districts the year's harvest is good.

The gentlemen will leave this afternoon for Idaho where a fortnight will be spent at various forest headquarters, and the first stop on the way to Logan.

Headquarters of all the southern Idaho forests will be visited as far north as Salmon and around to the eastward as far as Montpelier. Northern Nevada forest will be given attention and a special trip will be made from Twin Falls to Jarbidge, the mining camp which is situated in a forest reserve. Mr. Graves will take a train at Elko for California and Mr. Sherman will return home.

SENATE RESUMES THE HEARINGS

Washington, Oct. 7.—The senate's currency hearings were resumed today with the definite understanding that they will continue until October 25 if important witnesses appear.

President Wilson discussed the situation today with Senator Clarke, president pro tem of the senate, Majority Leader Kern, and Senator James, one of the administration's spokesmen.

Mr. Wilson told them the Republican minority should not be permitted to obstruct the Democratic majority's program.

The statement by Senator Glass of the senate committee, characterizing the hearings as a waste of time, would have the direct effect of strengthening the determination of some senate committee members to urge important amendments.

George H. Shibley, director of the bureau of political research, before the senate committee today, renewed his charge that the "trustocrats" had driven college professors who "espouse the cause of the people" from their positions.

Senator Weeks demanded that Shibley name professors who had been thus treated.
"Professor Edward W. Bemis of the Chicago university," replied Shibley, "was discharged because he attacked the Chicago Gas trust. John H. Commons, of Syracuse was discharged for voting for William Jennings Bryan. James Allen Smith of Marietta, Ohio, was driven from his place. The present president of the United States had a narrow escape because he advocated the short ballot. But he continued in the service of the people and has now triumphed."

CLERGY MEET IN NEW YORK

Protestant Episcopal Church of America Holds Forty-fourth Convention.

8000 IN ATTENDANCE

Twelve Hundred Members of Women's Auxiliary Already in the City.

New York, Oct. 7.—Along with the baseball crowds an unusually large gathering of men in the garb of clergy were to be seen in the lobbies of New York hotels today. The occasion is the forty-fourth general convention of the Protestant Episcopal church of America which will be formally opened at 10 o'clock tomorrow morning at the cathedral of St. John the Divine, continuing in session three weeks and possibly longer.

It is expected that the church gathering will include in all nearly 8000 interested persons. The convention itself will include 715 representative men from all parts of the world and the legislation which they pass will be in behalf of nearly a million communicants.

Whether the church is an autocratic or a democratic body was the subject of discussion at a pre-convention conference which continued today in St. Mark's church.

Rev. Lloyd B. Thomas of Carson, Nev., suggested that the convention should enforce a study of sociology in all theological seminaries.

Twelve hundred members of the women's auxiliary which holds its session coincident with the general convention are already in the city.

WIRELESS BUSY CALLING NOME

Life Saving Station Sends Out One Brief Reply to Government.

GREAT TIDAL STORM

Red Cross Prepares to Send Aid—Five Hundred Persons Reported Homeless.

Nome, Alaska, Oct. 7.—The storm is abating. Three unidentified bodies have been washed ashore.

Five hundred persons are homeless. Help from outside will be necessary.

The steamships Victoria, Navajo and Corwin are safe at anchor seven miles out.

Washington, Oct. 7.—Every available government wireless was sputtering out messages toward Alaska today calling for reports on the destructive storm at Nome. One brief reply came from the Nome life saving station, saying the waterfront had been devastated in a tidal storm.

The Red Cross prepared to extend its aid as soon as the needs could be learned. The revenue cutter Bear, now at Nome, has a capacity for bringing about 150 people to Seattle. Officials here thought steamships, which weathered the gale in the sea, out of Nome, would bring others.

The nearest garrison is at Fort Davis, near St. Michael, across the North Sound. Companies E and F of the Thirtieth Infantry, are at Fort Davis and it is expected that they would help without awaiting orders from the war department.

WOMAN CUTS OFF HER HAIR AND DONS TROUSERS

Because Mrs. Bessie Everson desired to travel with her husband in his search for work as a construction company cook, she cut off her long black hair, dressed in one of her husband's suits and shipped with him from Denver to Tucker as a common laborer. No trouble was experienced by the two until husband and wife came to Ogden last night to go to Pocatello. While they were in the yards, Watchman Frank Shumaker heard a woman's voice emanating from what looked to be a man. When he was convinced that the man was a woman, he turned husband and wife over to the police. The two are being held on open charges.

"I was running a rooming house in Denver when my husband was working as a chef," said Mrs. Everson to a Standard reporter today in the women's ward of the city jail, "but times became so dull it was necessary to get out or starve."

Mrs. Everson was comfortable in the suspended cot in her cell and she maintained that she was not worrying about the outcome of the affair.

"When I suggested accompanying my husband in search of work, he pointed out that we did not have enough money to travel together, but I said I would go disguised as a man. He objected but I insisted and finally he consented."

"My rooming house furniture was put in storage and I cut off my hair. My husband gave me a grey suit, a hat and an overcoat. I managed to get a small but heavy pair of man's shoes and I was fitted out. We an. James Allen Smith of Marietta, Ohio, was driven from his place. The present president of the United States had a narrow escape because he advocated the short ballot. But he continued in the service of the people and has now triumphed."

A Store that "Makes Good"

Practically all of our customers never think of looking elsewhere for their clothing or furnishings. Each season they come back, along with a few new ones—Good deal of satisfaction to be able to say that, truthfully. Just one big reason — we always "make good."

Whether it's a collar or a workshirt—a fifteen dollar suit or a single pair of knickers—we've but one object in view—to give you the best any market affords at a minimum price. Our ever increasing business only goes to verify our "make good" policy.

New Fall stock of good things ready for you.

Watson-Tanner Clothing Co.

"I Really Enjoy My Wife's Little Dinners, Now"

And it's all because we've got a dandy new range. Do you know—for the longest time I thought wife was losing the knack of her old-time good baking, when it was all the fault of an old worn-out range with loose bolts and open cracks that you could stick a knife into. No wonder wife had poor luck with everything she put in the oven. Because we were saving the price of a new range, we thought we were economizing—all a mistake, though—our new *Great Majestic* is easily earning its cost in the fuel-saving alone—and such baking and roasting!

You see, the *Majestic* is put together with rivets so that its joints and seams are practically air-tight—and they stay so forever. The body is lined with a thick sheet of pure asbestos board—placed behind an open grate so you can see it. This combination is the sole secret of the wonderful improvement in my wife's baking and roasting—since we purchased a

Great Majestic Malleable and Charcoal Iron Range

A Perfect Baker—Saves Half Fuel Outwears Three Ordinary Ranges

It is the only range made of malleable iron and charcoal iron. Charcoal iron WON'T RUST LIKE STEEL—malleable iron can't break.

All Copper Reservoir—Against Fire Box

The reservoir is all copper and heats through copper pocket, pressed from one piece, setting against fire box. Holds 15 gallons water. Just turn lever, and flame and reservoir are instantly moved away from fire.

Greatest Improvement Ever Put in Any Range

Increasing strength and wear of a *Great Majestic* more than 300 per cent at a point where other ranges are weakest. See it! Ocean thermometer—accurate all the time. All doors drop down and form rigid shelves. Open and ash pan—ventilated ash pit—ash cup. Best range at any price.

We can furnish any size or style *Majestic* Range with or without legs. Be sure to come in and see them. Carried in Stock and For Sale By

The Range with a Reputation

It Should Be In Your Kitchen

FOR SALE BY GEO. A. LOWE COMPANY

ter was easily arranged. On the train from Denver to Tucker there were a number of laborers and, while they must have known that I was a woman, they said nothing to either myself or husband.

"At Tucker, the laborers piled off the train like sheep and acted like sheep. There was no foreman there to meet them. Other workmen said there was no work in Tucker and we did not know what to do. Finally we decided to go to Salt Lake. We paid our fares and remained in Salt Lake two days without experiencing any trouble. I did not change my clothing at all. Last night we came to Ogden and were going to Pocatello. We were just walking across the yards when we were arrested. The man that arrested us said he had nothing against us and told the police they could do what they wanted with us."

When asked what she intended to do, Mrs. Everson, smiled and declared she would stick to her husband. She said she could see no harm in traveling as a man. Besides she thought it a great experience.

She is plump and 30 and has coal black hair which she parts in the middle. Some in the police station were guessing as to her identity this morning. She wears a black shirt with a green bow tie. It took a second glance to tell whether she was a woman or a plump young man about 24 years old.

THE NURSERY. TIME 1 A. M.

Restless Child—Mumple, tell me a fairy tale.

Ma—Father will be home presently, dear, and he will tell one to both of us.

—London Opinion.

SAME PURPOSE.

Giles—I've an idea that Mrs. Swell, man has asked me to dinner merely to fill up.

Smyles—Well, that's what we are all going for.

THE PANAMA FORECASTER

Forecasts of the effects of the Panama Canal on the world's business are of the first importance today to business men, in short, to whoever knows the need of an income and has an eye on the future. Of these forecasts there will be many in months to come. One of the earlier ones to consider the subject with scientific grasp, yet with the public's viewpoint, is Professor A. W. Kirkaldy, who read an address on the canal's prospective trade results lately before the British Association.

After pointing out that we, with our advantage of possession of the canal, and with coaling and naval stations and a ready supply of cheap coal for the ships on the Panama routes, may be a position to press hard the trade and shipping of both England and Germany throughout the Pacific and Indian oceans, Professor Kirkaldy foretells the coming reign of international competition.

Now in the competition of nations that is to ensue, this student perceives a high probability that, with other considerations fairly balanced, that nation will gain the lead whose capital and labor factors co-ordinate most perfectly and produce the least friction and the most products. Here is a thought of those who encourage or

condone the present highly frictional pouring of the empty powder in the state of class feeling—for the men joints between the American capital and labor.—New York Evening Sun.
